MONOCHROME DESKTOP PRINTER FOR A4 FORMAT

THE HIGH PERFORMANCE DESKTOP PRINTER.

Fast and efficient, the FS-1370DN has a silent-printing option that makes it the ideal printer for your desktop. Featuring network connectivity, excellent security standards, a large memory and fast printing capabilities, it easily copes with larger print volumes. The clarity of the LCD control panel ensures that operation is always especially user-friendly. Robust, highly reliable and very economical, the FS-1370DN is a printer you can count on.

- Up to 35 pages per minute in A4
- Standard duplex functionality for double-sided printing
- Max. paper capacity of up to 800 sheets
- PowerPC 440F5 / 500 MHZ, up to 1,152 MB RAM
- USB and network connectivity as standard
- Highly reliable thanks to long-life components
- Noise level regulation
- Exceptionally low printing costs

Easy-to-understand full dot LCD display for exceptional ease of use.

By printing in half-speed mode you can reduce the noise level and enjoy the benefit of silent operation.

MONOCHROME DESKTOP PRINTER FOR A4 FORMAT

ECOSYS stands for ECOlogy,
ECONomy and SYStem-printing.

With their long-life components, ECOSYS devices are designed to maximise durability and minimise the total cost of ownership with regard to maintenance, administration and consumables. The cartridge-free system means that only the toner has to be replaced regularly. The modular design concept allows you to add workflow-enhancing functions as required. Integrated system software provides long-term cross-network compatibility. KYOCERA's long-life components cost you and the environment less.

PRESCRIBE IIe

With the KYOCERA page design and control language PRESCRIBE IIe, even complex graphics, logos and forms (multipart forms) can be created independently on the system and saved and updated in the printer. Consequently, integration into print files no longer applies. They are only accessed as required and therefore relieve the load on the network.

The KM NetViewer

The KM NetViewer enables complete monitoring and control of all ECOSYS printers and digital KYOCERA multifunction units from any Windows® PC and thus provides ideal network administration. It also supports the standardised SNMP protocol.

Status Monitor and Command Center

The Status Monitor shows the current printers condition and gives direct access to the Command Center for the modification of settings that are not contained in the drivers (e.g. network settings, adjustment of sleep mode or blocking of the control panel).
