

HP Pro 3120 Mini-tower Business PC

Invest today. Grow tomorrow.

Designed to be flexible enough to meet your needs today and grow with you tomorrow. Featuring proven technology and out-of-the-box productivity.

Windows®. Life without Walls™. HP recommends Windows 7.

Realize your potential with the HP Pro 3120 Mini-tower Business PC. Powerful enough to handle your everyday small business needs with enough flexibility built-in to allow your PC to grow with you in the future. Get out-of-the-box productivity and flexibility in a modern look and feel today.

Growth comes standard

Your business needs evolve as your small business grows. You don't know exactly what you will need in future. With that in mind, the highly expandable HP Pro 3120 Mini-tower is designed to evolve with you. Available ports, slots, and bays allow you to configure your PC to meet your needs today, and then expand your capabilities when the time is right.

Out-of-the-box productivity

This PC is ready to go when you are with proven Intel® processors and chipset, a genuine Windows® 7* operating system, dual monitor support, a variety of optical drives, a hard drive up to 2 TB and up to 8 GB DDR3 SDRAM memory. And, with preinstalled software like HP ProtectTools Suite SMB, HP Power Manager, and McAfee Total Protection Suite you get a PC equipped to make an impact right out of the box.

Do more with pre-qualified options

Configure your PC to work the way you want with pre-qualified options like the 22-in-1 Media Card Reader and SuperMulti LightScribe DVD Writer Drive, which allows you to burn labels directly onto LightScribe disks. Or you can give your business a boost and enhance your visual experience via graphics cards with DirectX® 11 support.

Built to last

With innovative engineering and testing at our core, we're driving innovation in the industry trends that represent the biggest challenges and opportunities we and our customers face. So you know you're getting a reliable and durable desktop that can go the distance.

Plus, the HP Pro 3120 Series offers service and support options, so you can spend your time focusing on what's most important—your business.

THE COMPUTER
IS PERSONAL
AGAIN.

HP recommends Windows 7.

HP Pro 3120 Mini-tower Business PC

Windows®. Life without Walls™.
HP recommends Windows 7.

* System may require upgraded and/or separately purchased hardware and/or a DVD drive to install the Windows 7 software and take full advantage of Windows 7 functionality. See <http://www.microsoft.com/windows/windows-7/> for details.

**Windows® XP Professional is preinstalled on this system and includes end user rights and media for Genuine Windows 7 Professional. You may only use one version at a time. You must back up all data (files, photos, etc.) before uninstalling and installing operating systems to avoid loss of your data.

1. DirectX® 10 or later requires Windows Vista or later. Windows 7 will support older DirectX 9 adapters using a WDDM v1.0 (Vista) driver. DirectX 10 or later requires a WDDM v1.1 (Windows 7) compliant driver.
2. 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information. Dual Core is designed to improve performance of certain software products. Not all customers will necessarily benefit from the use of this technology. Intel's numbering is not a measurement of higher performance.
3. For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 8GB (for XP and XP Pro), up to 10 GB (for Vista), and up to 16 GB (for Windows 7) of disk space is reserved for the system recovery software.
4. Don't copy copyright-protected materials. Actual speeds may vary. Double Layer is a new technology. Double Layer media compatibility will widely vary with some home DVD players and DVD-ROM drives. Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 Double Sided-Version 1.0 Media. LightScribe creates a monochrome image. LightScribe media required and sold separately. Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 GB Double Sided – Version 1.0 media.
5. Blu-Ray is a new format containing new technologies; certain disc, digital connection, compatibility and/or performance issues may arise, and do not constitute defects in the product. Flawless playback on all systems is not guaranteed. In order for some Blu-ray titles to play, they may require a DVI or HDMI digital connection and your display may require HDCP support. HD-DVD movies cannot be played on this Desktop PC. Don't copy copyright-protected materials.
6. Service levels and response times for HP Care Packs may vary depending on geographic location. Restrictions and limitations apply. Service starts at date of hardware purchase. For details, visit www.hp.com/go/carepack.
